

KEY FEATURES

- Heavily weighted to 85kg to deter mishandling (other weight options available)
- Ergonomically designed armrests to assist standing and sitting
- Anti-microbial, wipe-clean material protects throughout the product
- Wrap around arms help those with reduced mobility
- Water resistant, UV stabilised material makes items suitable for outdoor use
- Static load tested to a weight of 450kg

MATERIAL/FABRICATION

Rotationally moulded, durable polyethylene, one-piece construction provides excellent strength and stability. Flamed, textured finish further strengthens the fire-retardant, water-resistant, UV-stabilized shell. Small holes drilled in the seat make it suitable for outdoor use. Anti-microbial material gives high chemical resistance (e.g. ammonia, sodium hydroxide) throughout the product. Item is fully recyclable as polyethylene can be melted down to create a whole new product

TEST STANDARDS

- Tested to ANSI/BIFMA X5:5:2012 standards
- Fire retardant to CAL 133 and UL 94 HB
- Strength and stability tested for severe contract use (BS EN 16139:2013 Level 2). Exceeded the 200,000 cycles pass mark by a further 300,000 cycles
- UV resistance tested to UV 21+ stating it can withstand 21,000 sunlight hours
- Static load tested to a weight of 450kg

OPTIONS

- Floor fixing solution
- Upholstered seat 1RYU-02S (makes product not suitable for outdoor use)
- Lightweight model (18kg)

COLOUR/FINISH

[Core colours] Moonwalk Grey, Cool Green, Icon Purple, Epic Blue, Granite. [Other available colours] Blaze Orange, Lime, Vegas Yellow, Thunder Grey, Black

DELIVERY

ASSEMBLY

Arrives assembled and ready to use

INSTALLATION/FITTING

Additional weighting can be carried out prior to delivery. Please advise if floor fixing is required when ordering as fixed items are made differently. All products must be fitted carefully following Pineapple's product instructions (where available). If not, any guarantee is at risk of becoming null and void

MAINTENANCE

Our multi-purpose Ryno cleaning wipes are available to help keep your Ryno products looking their best. Avoid using abrasive materials or cleaning agents, solvents, steam cleaning or jet washing. Use bleach and chlorine disinfectant with caution and avoid placing in close proximity to sources of heat. Re

WARRANTY

Lifetime guarantee against all manufacturing faults

DISCLAIMER

Extreme temperature changes (e.g. a cold night followed by a warm sunny day) may cause air inside the product to expand, causing short-term changes to its shape

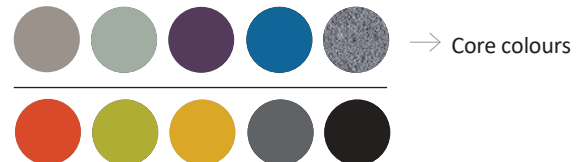

Due to the nature of the rotational moulding process, flat surfaces on Ryno[®] products may feature slight undulations which do not detract from the product's strength or durability.

UK Registered Design No. 6059839

KEY FEATURES

- Heavily weighted to 62kg to deter mishandling (other weight options available)
- Carefully considered curved design minimises ligature risks
- Sloping arms designed to minimise ligature risks
- Anti-microbial, wipe-clean material protects throughout the product
- Water resistant, UV stabilised material makes items suitable for outdoor use
- Static load tested to a weight of 450kg

DOMUS CHAIR

1DU1

770 H | 730W | 700D (mm)

Seat Height: 450mm

Weight: 41kg

KEY FEATURES

- Standard reinforcement provides strength and durability
- Immensely strong 25mm veneered plywood construction
- Seat platform rebated into back for additional strength
- Heavyweight to deter mishandling

MATERIAL/FABRICATION

The Domus tub chairs are a classically styled chair that is stylish and comfortable. The wrap-around back and arm design make this range extremely robust and durable. The Domus chair is available as a one or two-seater. Cushioned seat made from fire retardant, CMHR (combustion modified high resilience) foam is safe for both users and staff

TEST STANDARDS

- Strength and stability tested to BS EN 15372:2008 - Level 2
- Fire retardant to BS 7176:2007 source 5

OPTIONS

- Available in Standard or Plus levels of reinforcement
- Removable seat cushion for easy cleaning
- Available with or without slots

FABRIC

Available in a wide choice of fabrics including Vinyl, Waterproof, Non Waterproof and Leather

COLOUR/FINISH

Shell available in Natural

ASSEMBLY

Arrives assembled and ready to use

DELIVERY

INSTALLATION/FITTING

No fitting required

MAINTENANCE

A regular light dusting with a soft cloth is all that is required to maintain the shell's appearance. Real wood veneers are soft and can be scratched relatively easily, so it is important to avoid using abrasive materials for cleaning and care should be taken when moving items with a rough surface so as not to damage the surface. Excessive amounts of water should be avoided as this too will damage the veneer. Check before using furniture polish that it is safe for use on real wood veneers. See upholstered furniture section of our care guidelines for fabric care instructions

WARRANTY

7 year guarantee (does not include fabrics)

KEY FEATURES

- Fully enclosed base to minimise concealment opportunities
- Immensely strong 25mm veneered plywood construction
- Seat platform rebated into back for additional strength
- Heavyweight to deter mishandling
- Seat static weight tested to 200kg

MATERIAL/FABRICATION

Immensely strong veneered 25mm plywood shell. Seat platform rebated into back for additional strength and stability. Base is fully enclosed to prevent concealment of contraband. Seat cushion fixed to the base to ensure that it is not taken off. Cushioned seat made from fire retardant, CMHR (combustion modified high resilience) foam is safe for both users and staff

TEST STANDARDS

- Strength and stability tested to BS EN 15372:2008 - Level 2
- Fire retardant to BS 7176:2007 source 5
- Seat static weight tested to 200kg

OPTIONS

- Available in Standard or Plus levels of reinforcement
- Removable seat cushion for easy cleaning
- Available with or without slots

ZEN PLUS ROCKER

1ZENRP1-900

1015H | 660W | 1115D (mm)

Weight: 59kg

UK Registered Design No. 6131314

KEY FEATURES

- Fluid rocking motion provides a source of focus and calm
- Smoothly reclined shape prevents pressure points and provides comfort
- Evenly distributed additional weight to prevent overturning
- Plywood reinforcement for added durability
- Seat static weight tested to 500kg

MATERIAL/FABRICATION

During periods of stress or anxiety, some of us may find ourselves engaging in repetitive movements like fingerdrumming or leg-bouncing as a form of release. But for those living on the autism spectrum, repetitive movements are often part of everyday life. Rocking back and forth can help to minimise the impact of outside stimuli, providing a source of focus, and in turn, a feeling of calm. Interior made from CMHR (combustion modified high resilience) foam to ensure maximum support, durability and comfort.

The curved plywood ski is finished in matt lacquer with white pigment. Security screws are recessed into the plywood so they do not damage the floor surface. Anti-stash seams helps prevent concealment opportunities.

TEST STANDARDS

- BS EN 16139:2013 (Test level 2 - general use)
- Fabrics fire retardant to BS7176:2007 source 5

OPTIONS

- Available with fixed arms only
- Plywood base Birch finish only
- Can be upholstered in 2 fabrics for added personalisation
- Other products are available in the [Zen](#) and [Zen Plus](#) ranges

FABRIC

A wide choice of upholstery including water-resistant vinyl and fabrics.

CODA ARMCHAIR

1CDA1-900

815H | 945W | 800D (mm)

Seat Height: 450mm

Weight: 40kg

KEY FEATURES

- 40mm space between cushions to prevent concealment and make inspection safer
- Unlike conventional sofas, there are no dirt-traps and can be thoroughly cleaned
- Powdercoated steel frame and feet which are resistant to moisture from cleaning
- Plywood reinforcement for strength
- Seat static weight tested to 500kg

MATERIAL/FABRICATION

Coda is a fully plywood reinforced, anti-stash seating range with a 40mm space between the seat platform and the arms and back, making visual inspections easier and preventing concealment opportunities. Coda is raised off the ground to improve visibility and further aid cleaning practises. A matt black powdercoated metal frame with security fixings includes black plastic feet glides to prevent floor damage

TEST STANDARDS

- Strength & stability (EN 16139:2013 Level 2)
- Extra durability (500,000 seat and back cycles)
- Static weight test (seat) 500kg

OPTIONS

- Available in 2-tone upholstered finish

ROCK CHAIR

1RK1-BIR-WHITE

810H | 520W | 520D (mm)

Seat height: 460mm

Weight: 7.5kg

UK Registered Design No. 6131310

KEY FEATURES

- Cross-braced skis provide additional strength and manoeuvrability
- One-piece seat with wipe-clean laminate surface
- Strong and durable solid Birch frame
- Seat static weight tested to 317kg

MATERIAL/FABRICATION

Lacquered solid Birch frame with plywood seat in Egger Platinum White ST15 laminate finish. Key to the range's strength (tested for severe contract use; BS EN 16139:2013 level 2) are the interconnections which join each leg together, creating a rigid solid Birch frame which maximises durability and minimises damage. Seat and back is constructed from 10mm thick wood, the legs are 36mm x 45mm with a 25mm sled base. The arms attached is constructed from a powdercoated curved mild steel tube.

TEST STANDARDS

- Strength and stability tested for severe contract use (BS EN 16139:2013 level 2)
- Exceeded the 200,000 cycle pass mark by a further 300,000 cycles
- EN1728:2012 6.4 seat and back tested to 317kg / 50 stone weight

OPTIONS

- Matching coffee and dining tables available
- Rock chair with arms also available

1RK1-300-BIRWHT
810H | 560W | 550D (mm)

COLOUR/FINISH

Seat platform is in Egger Platinum White ST15 laminate finish. Frame comes in Birch as standard

ASSEMBLY

Arrives assembled and ready to use

INSTALLATION/FITTING

No fitting required

MAINTENANCE

Easy to keep clean with a soft damp cloth and use of a non-abrasive cream cleaner is acceptable. Do not use solvents, bleaches, abrasives or synthetic detergents. Avoid getting product wet. If this occurs dry thoroughly. Table tops are heat resistant but not heat proof so avoid putting items straight from the oven directly in contact with the top

WARRANTY

5 year guarantee

FUSION CHAIR

1FU1-400A

900H | 440W | 700D (mm)

Seat Height: 490mm

Weight: 45kg

KEY FEATURES

- Heavily weighted to 45kg to increase stability and deter misuse
- Fully upholstered with stitched seams and security fixings (no piping or staples)
- Solid Beech skis for manoeuvrability
- Solid 18mm thick plywood seat and base panels

MATERIAL/FABRICATION

Carcass is made from solid 45 x 45mm timber framework, with 18mm thick plywood seat and base panels for support and reinforcement. Plywood base panels allows staples to be hidden to deter misuse. Interior made from fire retardant, CMHR (combustion modified high resilience) foam so is safe for both users and staff

TEST STANDARDS

- All fabrics fire retardant to BS 7176:2007 source 5

SMILE HIGH BACK CHAIR

1SZH1-118

1175H | 820 W | 720 D (mm)

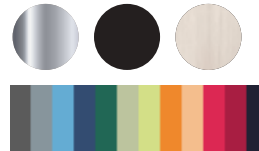

Seat Height: 400mm

Weight: 40kg

KEY FEATURES

- Subtle wings provide comfort and privacy
- Sweeping seat design acts as an integrated armrest
- Strong and elegant solid metal legs available
- Seat static weight tested to 160kg

MATERIAL/FABRICATION

The Smile range surrounds, comforts and ensconces its occupants, providing a private and relaxing space. Core to the design (and the name) is a sweeping curved seat platform which rises to become a tactile, integrated armrest. All fabrics are fire retardant, in accordance with testing standards.

TEST STANDARDS

- Strength and stability tested to BS EN 16139:2013
- Fire retardant to BS7176:2007 source 5

OPTIONS

- Black powdercoated leg option available (1SZH1-100)
- See below for wooden leg option available

1SZH1-158
1175H | 820W | 720D (mm)
Seat Height: 400mm

COLOUR/FINISH

Frame available in Stainless Steel, Black powdercoated finish or Birch wooden legs

FABRIC

Available in a wide choice of fabrics including Vinyl, Waterproof, Non Waterproof and Leather

ASSEMBLY

Arrives assembled and ready to use

INSTALLATION/FITTING

No fitting required

MAINTENANCE
